

The Invisible University and its historical values

- 1.U. means learning as an occupation
- 1.U. means being carbon positive.
- 1.U. all data is everywhere, all the time.
- 1.U. means architecture to no substitute for those in their context.
- 1.U. means a new relationship between mass and culture.
- 1.U. needs no new buildings.
- 1.U. means less up till (small robots, cyborgs and means gathering - see catalogue available from Columbia).
- 1.U. means knowing about how to do, is more important than knowing where you are.
- 1.U. can't be lost and that's more important than knowing where you are.

1.U.

1.U.C and Overhead you will find a 3D ball and stick model of a ball in a 3D ballpoint when being changed by Raymond Sargente in 1998. It incorporated one year later into the 3D ballpoint has remained unchanged ever since.
